Forest Fire Prevention

New Hampshire faces a continuing challenge in its forest fire problem — 97 percent of all our forest fires being man-caused and preventable — a serious indictment of interest in our own welfare and that of our neighbor. Both the State and the towns are striving diligently to effectively meet the challenge through education of the public to the threat fire presents to our woodlands; by maintaining a well trained corps of wardens and deputy wardens in every community and by providing ample opportunity for all who wish to dispose of unwanted waste materials. Carelessness and perverseness, however, continue to be the big hurdles.

Thoughtlessly discarded lighted cigars, cigarettes and matches from moving vehicles, by hikers, hunters and fishermen; careless burning of debris during hazardous periods in dangerous locations; illegal burning; improperly extinguished debris, camp and cook fires—all result in serious loss of property, disruption of industry and farm work and unnecessary expenditure of town and state funds.

To meet the challenge successfully, the state, your community and your local forest fire warden need YOUR thoughtful and cooperative effort—The rules are simple.

is Everybody's Business

1. Don't burn at home — use your town dump and avoid all fire problems.
2. If you do burn, be sure to secure a written permit from your local forest fire warden when the ground is not covered with snow. Permits are required for open debris fires, home incinerators, outdoor fire places and camp fires. Your warden is instructed to permit burning if weather conditions, site and type of burning are safe.
3. Be sure that all lighted material — cigars, cigarettes and matches — are completely out before discarding them. Use ash trays in automobiles.
4. Make certain that your debris, camp and cook fires are completely out before leaving them.
5. Insist that others be careful and comply with burning requirements.
6. Call the warden promptly when fire is detected and aid him to extinguish it.

REMEMBER — the fire you prevent might be the one which could burn YOUR property.

REMEMBER Forest Fire Prevention is Everybody's Business and our Most Important Undertaking.

1957 Forest Fire Record for Your Town.

Number of fires — 1. Acreage burned — 2.

Number of permits issued — 22.

GERALD GROSS

District Fire Chief

The Pike Place

The Board of Selectmen wish to explain the sale of the Pike place during the past year.

This property, which had been in the hands of the Town for several years, having been taken over for taxes, did not attract a buyer though every effort was made to find one. It had been placed with a number of agencies without result.

The sale in 1957 was made to Fred and Lottie Columbia for \$5,000. Terms: \$500 down, balance at \$40 per month, the town holding the mortgage. Due to its size and location, the banks would not take a mortgage.

It should be pointed out that there was no other prospective buyer, that the property was deteriorating rapidly and that Mr. and Mrs. Columbia agreed to bring the property back to its former good condition and keep it that way. This they have done. The Pike place is now in better condition than it has been in many years and, very much to the point, is back on the tax rolls of the town.

SUPERINTENDENT'S REPORT

For brevity's sake the reader is asked to review parts of the superintendent's reports dating back to 1952-53 when reference was made concerning the high school problem. In each year since then additional references have been made until now it appears imperative that new decisions must be made.

It is my opinion that Canaan cannot borrow enough money to properly build and equip the necessary facilities for a modern high school, that it can not tax itself enough to properly staff a new school in these days of tremendous competition for teachers, and that the cheapest and best education possible in the long run will be made available to its high school pupils by sending them to Lebanon on a tuition basis with some hope existing for a future cooperative school. This will not be an inexpensive proposition and continued efforts must be made to increase state aid to the more needy districts, such as Canaan. These conclusions have been reached after several years of careful study of the problems involved and 12 years of work in this area.

I recommend the following: 1) that the details for the year of 1958-59 be discussed with the state department of education and agreements reached pending the completion of the new Lebanon High School; 2) that the necessary understandings with the Lebanon School District be reached for the school year of 1959-60 and thereafter.

Respectfully submitted,

C. MAURICE GRAY

Cardigan Mountain School

Pictured on the front cover are three buildings on the new campus of Cardigan Mountain School. In the center is Clark-Morgan Hall with the low dining room extension to the left. Brewster Hall is on the right, Hinman Hall on the left. Started in 1946 on Canaan Street, the school moved to the Haffenreffer property in 1955 where it is developing toward a projected maximum enrollment of 120 boys in grades five through nine.

Many people visit Canaan as a result of the school's activities and carry stories of the town's beauty to all corners of the United States and several foreign countries. Boys applying for admission are required to visit the campus with their families before acceptance. This year's enrollment of 90 boys fills all available space. Now partly completed is a new class room building that will make possible an increase to over 100 next year.

The citizens of Canaan are proud to be numbered among those whose encouragement and generous financial support have made possible the growth of Cardigan Mountain School. As in other independent schools organized not for profit, new buildings and equipment must come from gifts while tuitions cover most ordinary operating expenses. In turn the school contributes to our economy, being, for instance, the largest local employer and biggest Post Office customer.
